

Corrigendum: *JPSR* vol. 5

A correction has been made to Yoojin Koo, "A Configurative Approach to Conservative Mobilization in Japan: The Effect of Combining Political Opportunities and Threats," which appeared in the *Japanese Political Science Review* vol. 5. On p. 41, footnote 7, three references were made to correlation coefficients: "(p=-.468)," "(p=-.471)," and "(p=.167)." Instead of the letter "p," which is typically used to refer to p-values, the letter "r" should have been used. Please note that the pdf file for the article has been corrected on October 8, 2020. The author apologizes for the error.
